Tango®

The Tango Shatterproof Line is the ultimate in foodservice drinkware. Made from a virtually indestructible polycarbonate, these models will never break, chip or crack. They can withstand 50 times the impact of acrylic and on average, last 6 times longer than glass. Choose from a variety of today's most popular glassware styles.

WHAT IS *Tango*[®]

ATTRACTIVE • LONG-LASTING • COST-EFFECTIVE

Tango[®] Drinkware is the new-age alternative to conventional glassware. Made from premium-grade polycarbonate or SAN, Tango's aesthetic and durable product line was specifically designed to stand up to today's demanding foodservice industry.

What can Tango mean to you and your business? In the fast paced world of beverage service, Tango products provide the ultimate peace of mind. With drinkware that offers up to 50 times the impact strength of standard acrylic and glass, you can spend less time worrying about the safety of your patrons and employees, and more time focusing on the growth of your establishment.

But the world of Tango also means big savings. Imagine eliminating the ongoing expense of ordering glasses that break and cups that get thrown away. The Tango alternative is a dishwasher-safe, stain and odor-resistant product that has all the appeal and benefits of both.

That's staying power.

*Made in U.S.A.
